Thanks for the note!

Yes, there will be some follow up actions. I'll try to convene a call soon to discuss next steps. In the meantime, if you are able to spend some time looking at the linkage between legacy roads and/or landslides and water quality data (beyond what is referenced in the NWEA letter), that would be very helpful. I'm getting the impression that we will need to substantiate our findings based upon as much hard data as possible.

Thanks again.

Hi Chris,

I'm sorry I wasn't able to join yesterday –

If there are any follow up action items for your roads team, just let me know.

Thanks much,

Teresa
